**LOCAL FINANCIAL ADVISOR, JOHN SKLENCAR PARTICIPATES IN EDUCATIONAL  
CONFERENCE IN NATIONAL HARBOR, MARYLAND**

*Advisor Gains Access to World-Renowned Speakers, Critical Educational Sessions and Training  
with the Goal to Benefit Clients*

**Plymouth Meeting, PA**, September 15, 2012—FSC Securities Corporation, a leading broker-dealer and member of Advisor Group, hosted its Connect ED Conference September 9 – 13 in National Harbor, Maryland.

“Connect ED was by far the most interesting educational conference I have ever attended,” said John Sklencar. “From courses outlining unique investment solutions to retirement income planning workshops to global investing insights and social security sessions, I am confident I can help serve my clients better than ever before. And the wisdom shared from the guest speakers provided inspiration that I will apply to my work every day.”

The event, an annual educational meeting, was attended by more than 1,500 financial advisors across the country and attracted world-renowned guest speakers and boasted a curriculum of over 130 educational breakout sessions on topics such as Social Security, Tax Strategies, Estate Planning, Market Volatility, Innovative Investment Solutions, and much more.

“Our 2012 Connect ED meeting was a great success,” said Jerry Murphy, President and CEO of FSC. “Advisors had the opportunity to meet with their individual broker-dealer and also with advisors from across our network. Attendees took part in intensive training and educational programs, met with industry leaders and powerful speakers and strengthened relationships with fellow advisors, home office colleagues and partners. Connect ED attendees gained critical insight and knowledge that they will pass on directly to their clients.”

###

FSC Securities Corporation has assembled a vast platform of resources, supported by an extraordinary home office team that brings 50 years of experience to serving our financial advisors. FSC shares the entrepreneurial spirit of independent financial advisors with a culture focused on home office/advisor collaboration to deliver solutions for their individual needs as both financial planners and business owners.
